

**IFRA CONFORMITY CERTIFICATE**

**FRAGRANCE COMPOUND:** VANILLA CREAM 355-A21042-05

We certify that the fragrance “**Vanilla Cream**” (355-A21042-05) is in compliance with the Code of Practice of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA-51, published 30 JUN 2023), provided it is used at a maximum concentration level of:

Combined IFRA category (*)	Maximum level of use (%) (w/w)
Category 1	100.00
Category 2	35.70
Category 3	100.00
Category 4	100.00
Category 5 A	100.00
Category 5 B	100.00
Category 5 C	100.00
Category 5 D	100.00
Category 7 A	100.00
Category 7 B	100.00
Category 8	69.70
Category 9	100.00
Category 10 A	100.00
Category 10 B	100.00
Category 11 A	100.00
Category 11 B	100.00
Category 12	100.00

(\*) See annex for definition of combined IFRA categories on page 2/2

IFRA Compliance above was assessed according to IFRA Standards and to IFRA Section 6 for general safety assessment:

- The IFRA Standards are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM).
- IFRA Standards are set per product category, each covering a range of product types which can be grouped together based on risk assessment considerations. Groupings have been derived with the new approach of combining the QRA2, photo-toxicity and systemic toxicity assessment.
- The target of the RIFM Safety Assessments is humans and their safety while handling the finished consumer products. The categorization of some product categories such as pet products; only relates to the human exposure during the application of such products, not to the exposure of the product on the pet. As a consequence, the assessment of safety of such finished consumer products with regard to animals is outside the scope of IFRA/RIFM and is the responsibility of the manufacturer.

For other kinds of application or use at higher concentration levels, a new safety evaluation may be needed. It is the ultimate responsibility of our customer to ensure the safety of the final product by further testing if need be.
